I am proud to serve the LGBT community and support the Bradbury-Sullivan Center and the potential it holds to improve lives. Let us find purpose in our common needs and aspirations: to embrace diversity, generosity, kindness and empathy; to express gratitude to those who have paved the way for us to live authentically; and to be mindful of our responsibilities to the community and to the individual potential within each of us to make a difference

*Lester Richard Bahr*

"The more we learn about man's natural tendencies, the easier it will be to tell him how to be good, how to be happy, how to be fruitful, how to respect himself, how to love, how to fulfill his highest potentialities...The thing to do seems to be to find out what one is really like inside...as a member of the human species and as a particular individual"
